Local Contractors

The Town of Kearney has purchased a garbage compactor for our King William transfer station and to support it a concrete pad must be installed prior to the installation.

The needed pad is (40' x 10' x 6" – mesh reinforced). The compactor will be installed before the end of the year, the construction of the pad needs to be completed in the next month. Understandably this is a short notice project, and I would like to thank you in advance and look forward to hearing from our contractors.

Any questions or concerns please feel free to contact me anytime.

Thank you.

Paul Audette (Public Works Superintendent)
